

ENERGY DATA REQUEST PROGRAM DATA ELEMENTS [1] [2]

DATA CATEGORY	DATA ELEMENT	DESCRIPTION	PII [3]	DATA FIELD NAME
CUSTOMER	BILL ACCOUNT NUMBER	Identifier of a customer account in the billing system	✓	Bill Account ID
	CORE AGGREGATOR BILL INDICATOR	Code used to indicate whether the bill account is to be billed by an aggregator.		Core Aggregator Bill Indicator
	CUSTOMER CLASSIFICATION	Residential, Commercial, & Industrial customer sector as determined by their NAICS code and billing rate.		CCF Code
	CUSTOMER ID	This is a customer identifier. One customer can have many bill accounts. Customer ID to Bill Account ID has a one-to-many relationship.	✓	Customer ID
	CUSTOMER NAME	The business or individual customer name	✓	Customer Name
	MEDICAL BASELINE	This identifies if the bill account is on Medical Baseline.		Medical Baseline Indicator
	NAICS CODE	Standard industry code associated with a business		NAICS Code
	NAICS Description	This is the description of the NAICS code.		NAICS Description
PREMISE	STREET ADDRESS	Full physical street address	✓	Service Address
	CITY	City		City
	LEGAL JURISDICTION	Specify Town, City, County, Incorporated, Unincorporated		Legal Jurisdiction
	ZIP CODE	ZIP code 5 digits	✓	ZIP Code
	COUNTY	County		County
	FACILITY ID	Identifier for a customer address	✓	Facility ID
	CLIMATE ZONE	Climate zone tracked in our system which are the following: 1=Coastal/Inland Empire, 2=Desert, 3=Mountains		Climate Zone
	METER LOCATION	Identifier for the location of the gas meter tied to an address		Meter Location Code & Description
	MASTER METER	Indicates a master meter		Meter Config Description
	LOT CONFIGURATION	Describes code used to identify type of configuration known to exist at a particular location. (ex. Mobile Home Park, 5 or more connected structures, single dwelling, etc.		Lot Configuration Description
	ESSENTIAL USE	Code used to describe whether or not a facility gas consumption is for essential usage like heating or cooking.		Essential Use Description
METER DATA	MTU READ DATE	Meter Transmission Unit reading date		Read Business Date
	INTERVAL READ TIME	Meter reading timestamp		Read Value (0000-2300)
	INTERVAL USAGE	Usage recorded during interval		Interval Usage
	CHARGE START DATE	The start date for gas charges		Charge Start Date
	CHARGE END DATE	The end date for gas charges		Charge End Date
	METER ID	Identifier for the meter associated with a gas service point	✓	Meter Badge ID

DATA CATEGORY	DATA ELEMENT	DESCRIPTION	PII [3]	DATA FIELD NAME
METER DATA cont.	MONTHLY BILLED USAGE	Billed usage. The month when the consumption occurred.		Month
BILLING	NON GAS CHARGES	Non Gas Charges such as service order charges		Non Gas Charge Amount
	GAS CHARGES	Gas usage charges including taxes		Gas Charge Amount
	BILL AMOUNT	Total gas and non-gas charges.		Total Gas and Non Gas Amount
	BILL END DATE	Billing period end date		Charge End Date
	BILL START DATE	Billing period start date		Charge Start Date
	TARIFF	This is the SoCalGas rate for the bill account		Tariff
	CARE INDICATOR	Indicates billed on CARE rate		Care Switch
	HEATING ONLY INDICATOR	Switch used to indicate that related facilities are billed as 'heat only'.		Billed as Heat Only Indicator
	MONTH	Billed usage. The month when the consumption occurred.		Month
	TOTAL BILL AMOUNT	Total amount billed for the month indicated		Total Bill Amount
CUSTOMER PROGRAMS				
	LEVEL PAY PLAN	Participates in a bill payment leveling program		LPP Indicator
	CARE	The CARE program provides a 20% bill discount for income-qualified residential customers as well as customers participating in public assistance programs.		Care Indicator
	MY ACCOUNT	Indicator showing the customer has enrolled in our SoCalGas My Account site		My Account Indicator
	PAPERLESS BILLING	Indicator showing customers who are no longer receiving paper bills		Paperless Billing Indicator
	MEDICAL BASELINE	Medical Baseline Allowance provides additional gas at the lower baseline rate for people with certain medical conditions.		Medical Baseline Indicator
ENERGY EFFICIENCY (EE) PROGRAM DATA [4]				
	EE MEASURE CODE	Unique identifier in database		MeasCode
	EE MEASURE DESCRIPTION	Description of measure/technology installed		MeasDescription
	EE PROGRAM SECTOR	Statewide Program Sector (i.e. Residential)		Sector
	EE PROGRAM	Program (i.e. Home Upgrade)		PrgElement
	EE MEASURE PAID DATE	Date EE application was paid		PaidDate

NOTES:

[1] Data availability is subject to meeting program requirements, i.e., university IRB certified research projects or statutory need for the data requested to comply with state or federal law.

[2] Data availability to Local Governments is subject to program rules for aggregated or anonymized data. No customer identifiable information can be provided.

[3] Personally Identifiable Information (PII) is confidential customer data and is omitted from EDRP datasets. Any non-PII data element, in combination with PII data, will be treated as confidential PII data. Limited PII may be provided if the requester demonstrates the data is essential to the research or project. SoCalGas defines Personally Identifiable Information (PII) as Data which identifies or could be used to identify an individual customer or account, such as name, address, Account ID, Service Agreement ID, Meter ID, customer-specific usage, or bill amount. This includes information that could be used to identify an individual, family, household or business even if they are not the customer of record.

[4] Aggregated Energy Efficiency Program data is publicly available on the CPUC website: eestats.cpuc.ca.gov
